Who is St. George?

St. George, a native of Cappadocia, was raised in a devout Christian family. He became known for his miracles, including defeating a serpent that had been terrorizing a nearby city. St. George went on to become a talented officer and the pagan emperor Diocletian took notice of his impressive military exploits. However, he is not known as Victory Bearer, for his military achievements alone, but rather for successfully enduring martyrdom.

When Emperor Diocletian intensified his persecution of Christians, St. George bravely confessed his faith and endured torture. Despite numerous attempts to break him, St. George remained unharmed and steadfast in his faith and even converted the emperor's wife, St. Alexandra, and many of his tormentors. He was eventually executed, but his legacy lived on and just a decade later, Saint Constantine issued the Edict of Milan, granting religious freedom to Christians. St. George's feast day is April 23.
